# Banksman Offshore refresher

Safety and efficiency are of the utmost importance when moving loads at an offshore installation. Employees assisting the crane operator in the moving of loads must be aware of the dangers and how to deal with them. Safe rigging of loads and good communication with the crane operator are an important part of this. The competences of the crane operator are kept up-to-date in the offshore installations Banksman (refresher) course.

## Content

Theory/practice

- various cranes and their applications
- hoisting equipment
- general transport
- rules and regulations
- certification, inspection and marking
- attaching loads
- hand and arm signals and portable radio
- cooperation with the crane operator (practice)

The theory is given in the immediate vicinity of the crane, so the theory is made familiar with practical examples. During the practical part, the participants engage in group lifting operations.

## Results

The student concludes the basic training with a theoretical and practical test. If this assessment is positive, the student receives the Provisional certificate of Expertise & Registration - Banksman installation recognised by Nogepe. This Certificate of Registration & Expertise has a fixed period of validity of 4 years.

## For whom?

Employees involved in an offshore installation lifting activities.

## Requirements

The participant needs a valid certificate banksman.

## Duration

1 day

## Price per participant

€ 649.00

Price is for course year 2020-2021.  
Prices are excl VAT
